The prior art does not individually or collectively disclose, imply, suggest and/or teach the method of providing two spaced apart balloons on a catheter, wherein an electrode array is located on the catheter between the balloons and applying suction in the region between the inflated balloon members to remove moisture released during ablation, said suction substantially preventing formulation of a low-impedance liquid layer around the electrodes when ablation is carried out using the electrodes. RM

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
